As to Mr. Littlejohn's other record in regard
to "non-partisan legislation," we may cite
a few samples. In the early days of the session
of 1850, while he was Speaker of the Assembly,
a bill was rashed through under his auspices
forbidding the Common Comnei of our City to
dispose of or give away any franchises or grants
for city railroad. This bill was at first widely
applanted as an indication of legislative honeity. "Here's richness for you," shricked the
intelligent and independent press; and it beteame for some few, brief, glorious and happy
weeks a dream of the public that, if fresh city
railroad privileges and charters were to be given
for they would be disposed of to such capitalists
as Messrs. A. T. Stewart, A. R. Eno, John J.
Phelps, and other citizens of property and character, who had offered to pay many millions
into the public trasury for such grants.

The brief time, however, these blissful illusis once rushed through the Legislature under Mr.

The Commission of Inquiry on the Be Disturbances-The Rvidence Unfare able to Gov. Kyre-Testimony of Major Gen. Jackson.

From Our Special Correspondent KINGSTON, Js., Feb. 9, 1868.

The two Commissioners, Russell Gurney, sq., M. P., and J. B. Maule, esq., who, together with Sir Henry Storks, compose the Royal Commission for inquiring into the origin of the late outbreak of pegroes at Morant Bay, and the circumstance connected with its suppression, arrived here in the English packet o, the 21st ult., and the Commission commenced its labor at Spanish Town on the 24th.

Previous to this the Legislature had passed an act empowering the Commission to compel the attendance of witnesses and to administer oaths to witnesses, thus smoothing the way to a proper investigation of the whole affair. A large number of witnesses have been already examined, among them the ex-Governor, Mr. Eyro, but as yet not a particle of evidence has been elicited in proof of the assertion, so confidently made at the time of the disturbances, that that outbreak was the precursor of a general rebellion of the blacks throughout the island. The Commission sits as an open Court, and the evidence taken is daily published in the island journals. There is a large number of witnesses to be examined, and it is doubtful whether the Commission will close its labors before the end of the present month.

Meanwhile, Gov. Eyre's friends are moving heaves and earth to prop him up, by endeavoring to show that there really was a necessity for the server measures which were adopted toward the blacks of St. Thomasin the East, and for the hanging of George William Gordon. They are getting up addresses to him in different parts of the island inforsing all that he has done, and to these they obtain as many signatures as possible. but as yet not a particle of evidence has been elicited in
